**It may be feasible to purchase and install two new gasoline engines rather than purchase two entirely new vehicles; 1986-87 TDA Claim will address this.

iv. Has this system been in non-compliance with its required local support ratio? No

If yes, identify the year or years: _____

3. Extension of Service

An extension or new service is exempt from the required farebox and local support ratios if:

- A. The extension of service has been in operation for less than two years at the end of the fiscal year.
- B. The claimant's operating cost for the fiscal year, after excluding the operating cost of the extension of service, exceeds its operating cost for the prior fiscal year.
- C. The claimant submits a report on the extension of service to COG. (For details of the report, see 6633.8(c)).

i. Is this a new service? _____

ii. Is there an extension of service being claimed? _____

If so, please identify the extension of service:

4. Fifteen Percent Expenditure Increase

If any of the line items on the attached budget exceed by more than 15% the expenditure for that same item in the previous year's budget, then an explanation for that increase must be attached.

5. Narrative Description

Describe any changes in service characteristics from the previous fiscal year. Please attach an additional page if necessary.

Claim

One additional vehicle was purchased in 1984-85, Saturday service was initiated and fares lowered for non-elderly and non-handicapped persons. These were all accomplished late in the fiscal year so it is impossible to ascertain the affect of service.
A replacement vehicle is included in this year's budget to continue the replacement of diesel-powered vehicles to gasoline.

Article 8 Contractor TDA Requirements

For contracted transportation service providers, the San Joaquin County Council of Governments' Executive Board has waived the farebox and local support ratios as it is empowered to do and established a two-step process.

1. Match Requirement

To receive the same amount of TDA funds (LTF and STA combined) that a service received in the previous year, no more than 90% of the operating funds (minus depreciation) in the budget may be TDA derived. The ten percent or more matching funds may come from any other source available to the community as long as it is not TDA.

2. Operating Cost Per Passenger Objective

To receive an amount of TDA funds (LTF and STA combined) in excess of what was claimed the previous fiscal year, the claimant must establish a specific service objective for the fiscal year of the claim. This specific objective must be the operating cost per passenger for the fiscal year of the claim. The objective should be a realistic one based on current and past system performance, but should be low enough to represent an "improvement" when warranted. The COG Executive Board will adopt the operating cost per passenger figure that a claimant must meet in the fiscal year of the claim.

If the system failed to meet its operating cost per passenger objective in the fiscal year prior to the claim, then it would only be eligible to file a claim for the level of TDA funding received in that fiscal year. If a system wishes to be eligible for increased TDA funding in a future fiscal year, then it should identify an operating cost per passenger objective.

- i. What was the level of TDA funding received in the previous fiscal year for this system (LTF and STA)?
\$ _____
- ii. Does the attached budget information demonstrate at least a 10% match of non-TDA funds? _____
- iii. Is this claim requesting more TDA funds than were received in the previous fiscal year? _____
If yes, how much more? _____

iv. What was last year's Operating Cost per Passenger Objective? _____ What was the actual Operating Cost per Passenger? _____

a. FY 1984-85 Operating Cost \$ _____

b. Total Passengers _____

c. Operating Cost Per Passenger
(a ÷ b) \$ _____

v. What is the Operating Cost per Passenger Objective for this claim?

d. Budgeted Operating Cost \$ _____

e. Estimated Total Passengers _____

f. Operating Cost per Passenger
(d ÷ e) \$ _____

g. FY 1985-86 OPERATING COST PER
PASSENGER OBJECTIVE \$ _____

3. Fifteen Percent Expenditure Increase

If any of the line items on the attached budget exceed by more than 15% the expenditure for that same item in the previous year's budget, then an explanation for that increase must be attached.

4. Narrative Description

Describe any changes in service characteristics from the previous fiscal year. Please attach an additional page if necessary.

PART IV - OTHER PURPOSES

It is possible that a claimant may wish to expend TDA funds for purposes allowed within the Act, but not covered by the three previous parts. For instance, TDA funds may be claimed to subsidize AMTRAK service in a community. To complete this section, please identify the project, the purpose of the project, the estimated cost, and the fund from which money is being claimed. It is advisable to communicate with COG staff before completing this section.
